## **Our Motivation**

**Dr. Sunil Kapoor**  
**Chairman**  
**RKDF Group, Bhopal**

The need for quality education in the society is increasing at a fast pace and a drive towards making this available to one and all is what holds the maximum importance in the nation. RKDF Group is taking strong steps in achieving this under the chairmanship of Dr Sunil Kapoor, who wishes to take education in India to greater heights.

Dr Sunil Kapoor believes in the power of the knowledge and knows that if education reaches to every human being then many problems will be resolved in itself and will also drive the nation to a better future. The RKDF University in Bhopal was launched with an objective to take education to one and all. The University combines the traditional human values with the modern day knowledge and present them to the young minds of the country.

The University has various departments focussing on different streams and specialisation. Some of the specialities offered by the University is Engineering, Science, Pharmacy, Management, Education, Homeopathy, Ayurveda and Nursing. It aims to open new doors of opportunities for the students and professionals of the country, while constantly serving the society.

## Chancellors Words

**Dr. Sadhna Kapoor**  
**Chancellor**  
**RKDF University, Bhopal**

Education is the prerequisite for socio-economic development of the nation in general and people in particular. Not enough educational facilities are available for the professional studies particularly in the area of Engineering, Health sciences, Management, Computer Science and Information Technology. This was realized by the RKDF group way back in the 1990s in developing states like Madhya Pradesh where only a few engineering and medical colleges were available to cater to the needs of millions of students desirous of pursuing higher education in professional subjects.

RKDF Education Group managed by the RKDF Education Society, Bhopal (Estd. 1994) and Ayushmati Education and Social Society, Bhopal (Estd. 1999) realized these limitations and decided to make available technical education to the needy students and established their first private college in the city of Bhopal in 1995 at Mandideep in Raisen Dist. The RKDF group continued its efforts to provide quality education and established colleges at Bhopal, Sehore, Indore and Rewa in the State of Madhya Pradesh. This was not the end of the desired goal to serve the Nation through qualified and knowledgeable young professionals but only a humble beginning. The efforts continued and the RKDF Group established the RKDF University at Gandhi Nagar, Bhopal.

The University is sponsored by the AYUSHMATI EDUCATION AND SOCIAL SOCIETY, BHOPAL and has the approval of Madhya Pradesh Legislature. The University is located on a lush green environment near Gandhi Nagar, Bhopal. The University has mission to provide quality education in most of the disciplines of Engineering, Applied Science, Management, Health sciences, Education, Law and Humanities & Social Sciences up to the Post-graduate level including M.Phil and Ph.D. The University aims to produce talented professionals with higher education and skill to serve mankind.

Besides academic programmes, the University offers excellent facilities for every aspect of a student's life including his/her personality development. The University also proposes to have cooperation and collaboration with other National and International academic institutions to improve the quality of education and research. As Chancellor it will be my endeavour to provide all modern educational and living facilities to the students at the campus. I also wish the well-being of all the employees of the University. I wish the best career and future of students of the University who will be studying and pursuing their Higher Education to enrich knowledge and engage in innovative activities to serve the Nation and humanity with dedication. I also wish prosperity and well-being of the employees and students of the University.

## Message from our Managing Director

**Dr. Siddharth Kapoor**

**Managing Director**

**RKDF University, Bhopal**

The essence of the life is to live a life for others and die for a noble cause. We have a crystal clear vision of enlightening the student brain with sound and technology rich academic the curriculum. We pledge to ensure that the students of RKDF University, Bhopal will not only progress in their respective fields but will also become the responsible citizen by abiding to the rules and will live a disciplined life. The campus has a stress free environment which encourages the student to learn and the faculty has adopted all the measures to create a homely and a positive atmosphere. The students from time to time are exposed to practical implementation for their subjects through industrial visits, seminars and guest faculty lectures. As we are aware that the students are the building blocks of our nation, tomorrow they will represent our nation in different disciplines, we at RKDF University, Bhopal will help the students to become knowledgeable and face the hardships of life without fear and with brave heart. We live a dream in which every member of the RKDF family will ask for broader shoulders and not for the fewer burdens. Come let's join the hands together to make the dream come true.

## Vice Chancellor's Desk

**Prof. Vijay K. Agrawal**  
**Vice Chancellor**  
**RKDF University, Bhopal**

Heartiest Greetings from RKDF University, Bhopal!!

Higher education in the country is at the threshold of major institutional reforms targeted towards cutting edge R&D and innovations. The major challenges before the upcoming and emerging Universities apart from quality of teaching and learning process are the need of experienced and enlightened faculty. Network of knowledge management, creative teaching and research, strong industry interface and innovative curriculum are the need of the day.

RKDF University is marching towards meeting these challenges to become a 'Global Knowledge Enterprise'. The University has a seamless synergy between Humanities, Social Sciences, Science and Engineering and we are targeting towards breaking molds of traditional departmental boundaries through interdisciplinary approach in teaching and research. We are also striving for creating knowledge network and connections with the national and global professional bodies, international centres of higher learning, industries for skill development and also with the society for sharing fruits of knowledge with the masses.

We, the RKDF Faculty Members and the Staff along with our Management are committed to build this University a real knowledge hub and, to work towards shaping the top class career of our students. We are moving ahead to help the villages through our extension programs. For this our resources have been mobilized for strengthening the youth & woman of the nearby village.

We do welcome your suggestions and feedback if we can work together for further improvement, in turn, enabling us to continue imparting world class education.

With Best Wishes for Ever to Our Students!

## **Mission**

Harmonize higher education with excellence in science and technologies, strongly integrated with human values of equality, compassion, sharing, contribute to livelihood security and sustainable societal development and to be recognized as a premium National University providing dedicated service for the social and economic growth and to develop as a "centre for excellence".

## **Vision**

To be a destination of choice for world class qualitative higher education and establish an institution of excellence and relevance, with a focus on creating competent professionals with sound domain of knowledge and skills and human values through knowledge pioneering scholarship, research and teaching and improve the lives of millions through growth, prosperity and sustainable physical environment.

## **Objectives**

- To build human resource competence in teaching, research and technology / knowledge sharing.
- To institutionalize appropriate changes in course curricular and delivery systems to accommodate concerns and aspirations of all stake- holders.
- To strengthen partnership with national and foreign institutions especially south–south cooperation for sustainable higher education and research.
- To promote gender equity and provide quality and relevant education through institutional network.

## Highly Nutritional Mushroom Cookies

With the help of faculty members, Faculty of Agriculture students cultivated oyster and button mushrooms. Cultivated mushrooms were harvested on maturity then dried and powdered. These mushrooms were used to make cookies which have high nutritional value and high protein content. These cookies were also kept for sale in university campus. People who bought and ate these cookies, praised them very much.

# ***Green Campus & Environment Friendly Initiatives***

## Green Campus & Environment Friendly Initiatives

RKDF University Bhopal is committed to creating a green and clean campus. The university has made significant progress towards this goal, with over 60% of its campus being open area. This open area includes a variety of trees, plants, and flowers, which help to create a healthy and sustainable environment. The university has also developed a medicinal garden with over 29 varieties of medicinally valuable plants. In addition to its medicinal garden, the university has also developed a greenhouse. This greenhouse is used to grow a variety of plants, including vegetables, herbs, and flowers. The university's commitment to a green and clean campus is evident in its many initiatives. These initiatives are helping to create a healthier and more sustainable environment for students, faculty, and staff.
