“TWO DAYS INTERNATIONAL SEMINAR ON CURRENT BIOTECH CUTTING EDGE TECHNOLOGY”

Faculty of Science, RKDF University, Bhopal

04th -05th JAN. 2024

Venue: Seminar Hall Administrative Block
RKDF University, Bhopal, M.P. - India

Host Organisation

Faculty of Science
RKDF University, Bhopal M.P. - India

Focal Theme

The 2nd phase of evolution and development of biotechnology can be called classical biotechnology. This phase existed from 1800 to almost at the middle of the 20th century. During this period various observations started pouring with scientific evidence. The 20th century of 1990 is called the era of biotechnology. Biotechnology involves using living organisms in the production of food and medicine. It dates by several thousand years to when people inadvertently discovered the usefulness of one cell organism like yeast and bacteria. Today's 5 branches into which modern biotechnology is divided - Human, Environment, Industrial, Animal and Plants, which helps us to fight hunger, disease, produce more safely, cleanly, efficiently, reduce our ecology footprint and save energy.

About RKDF University

We offer excellent facilities for higher education in various disciplines of Science, Arts, Commerce, Engineering and Technology, Management, Pharmacy, Education, Medical and health from graduate to Ph.D. level with emphasis on the holistic development of students. University interacts with national level research institutions and other foreign institutes of repute to improve the quality of education. The university has vision to foster prosperity to improve the lives of millions through skill and knowledge.

M.P. Council of Science & Technology

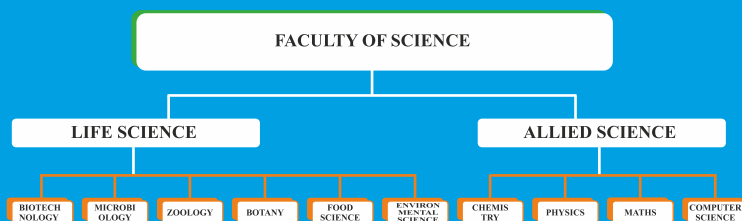

M.P. Council of Science & Technology was established under MP Society Registration Act, 1973 in October, 1981. Apex body of the Council is General Body and Chief Minister is the President of General Body. There are 61 members consisting of ministers and secretaries of different state departments and heads of the departments of Water resources, PHE, PWD, Forest, Agriculture, Industry and Technical education. In addition, 4 vice-chancellors from universities, eminent scientists in science, Sociology and Medical sciences are nominated as members by the president. Representatives from national level research organizations are also nominated. The second important body is Executive Committee and Chairman is Minister of Science & Technology Department. The Committee consists of 13 members, comprising of MLA, educationist, scientist and principal secretaries etc.

About Faculty of Science

Science is a systematic enterprise that builds and organizes knowledge in the form of testable explanations and predictions about the universe. It has brought about a great revolution and renaissance in the modern technological advances and has opened up nuances to set in place with the changing times. Faculty of Science was established in year 2012. The vision of the Faculty of Science is "Transformation through Education and innovative research".

Career Craft Consultants

Career Craft Consultants is a leading education consulting firm having 13 years of experience.
